Field	Details
Document Type	Website PRD with product images
Company	S.S. PHARMACY
Industry	Ayurvedic Medicines & Herbal Healthcare Products
Manufacturing License	R-1970/Ayur
Website Phase	Phase 1: Informational + Lead Generation
Prepared Date	10 July 2026

Note: Website copy should use compliant, responsible wording and avoid absolute disease-cure claims.

1. Project Overview

The S.S. PHARMACY website will serve as the official online presence of the company. It is designed to establish a professional digital identity, showcase Ayurvedic healthcare products, build customer confidence, and generate enquiries from customers, distributors, dealers, healthcare professionals, medical shops, hospitals, clinics, and wholesale buyers.

In the initial phase, the website will be an informational and lead-generation platform rather than an e-commerce store. Visitors should be able to learn about the company, explore product information, understand manufacturing and quality standards, view product images, and contact the company or apply for distributorship.

2. Project Goals

- Build a professional online presence for S.S. PHARMACY.
- Increase customer confidence through a premium, trustworthy website experience.
- Showcase Ayurvedic products with ingredients, benefits, usage guidance, pack details, and images.
- Generate customer enquiries and distributor/dealer leads.
- Improve online visibility through SEO-ready content and page structure.
- Highlight manufacturing quality, licensing, hygiene, and credibility.
- Create a scalable platform for future online shopping and dealer workflows.
